

"How to post your favorite photo op"

Help your fellow Club members by posting nearby and hill country locations with good photo opportunities. Include directions, important features, best time to photograph, and one or two photos. Size the photos for the website: 700 pixels on larger side, 72 pixels per inch, jpeg at quality setting of 7-9. View the existing postings for content.

Send these in an email to Ruby Pecot at pecotr@suddenlink.net.

Ruby has volunteered to coordinate these submittals and get them posted on our website.
